royal marbles RETT. LAPPATO

La finitura lappata e' consigliata per uso rivestimento o per pavimenti da bagno in ambito residenziale.
Nello specifico il tipo di pavimentazione deve essere non soggetta ad eccessive sollecitazioni e mai a diretto contatto con aree esterne.
Come si verifica comunemente nelle pietre naturali l'eventuale presenza di puntini sulla superficie o di qualche disuniformita' della lucentezza sono da considerare caratteristiche del prodotto derivanti dalla lavorazione a cui viene sottoposto.

The polished finish is recommended for wall coverings or for the floors of residential bathrooms.
Specifically, floor coverings in this material must not be subjected to excessively heavy traffic and must never be in direct contact wiath outdoor areas.
As is often the case with natural stones, any spots on the surface or any unevenness in shine are typical characteristics of the product, deriving from the process used.

La finition polie est recommandée pour le revêtement sol et mur des salles de bains résidentielles.
Notamment, le revêtement de sol ne doit pas être exposé à des contraintes excessives, et il ne doit jamais être en contact direct avec des zones extérieures.
Comme cela est souvent le cas pour les pierres naturelles, les micro trous éventuellement présents à la surface du produit ou l'hétérogénéité de son éclat forment des caractéristiques propres au façonnage.

Die poliert Oberfläche wird für Wandverkleidungen und Bodenbeläge in Privatbädern empfohlen.
Der Bodenbelag darf keinen starken Beanspruchungen ausgesetzt sein und keinen direkten Kontakt zu Außenbereichen haben. Wie bei Natursteinen üblich, kann die Oberfläche Körnungen oder einen unregelmäßigen Glanz aufweisen. Diese Merkmale sind typische, beabsichtigte Produkteigenschaften, die durch das Bearbeitungsverfahren hervorgerufen werden.
